📍 Islamabad, Pakistan | 📞 +92 339 0809804 | ✉️ hasnainbaloch1444@gmail.com
🌐 mhasnain-dev.netlify.app

Computer Science graduate and **AI Engineer** with hands-on experience in **Python, Machine Learning, Artificial Intelligence, MERN Stack, RESTful APIs, and PostgreSQL**. Skilled in building intelligent, data-driven software and AI-powered systems using modern ML tools and frameworks. Strong foundation in software engineering, backend development, and databases. Actively working on multiple AI-driven projects.

Work Experience

AI & Software Development Intern Jul 2026 – Present

National CERT | Technology Development Centre Directorate (Remote)

- Selected for the National CERT Summer Internship Program under the AI & Software Development domain.
- Developing an AI-based software solution for a real-world problem using Python and modern software engineering practices.
- Collaborating with mentors and fellow interns to design, develop, and implement scalable software solutions.
- Working with APIs, databases, Git, and AI concepts while following the software development lifecycle.

UI/UX Designer Feb 2026 – Jul 2026

Solexes (Pvt) Ltd | Islamabad, Pakistan

- Designed responsive user interfaces and high-fidelity prototypes using Figma for web and mobile applications.
- Collaborated closely with developers to deliver production-ready designs and improve user experience.
- Contributed to the design of **Docutect AI**, an AI-powered documentation intelligence platform.

Mobile Application Developer Jun 2025 – Aug 2025

CMGL | Coopers & McGill | Istanbul, Türkiye (Remote)

- Built responsive mobile screens using **React Native**; collaborated with the team on a Quranic app featuring Surah navigation, search, and bookmarking.
- Designed and refined UI/UX layouts in Figma; participated in agile workflows and delivered features on time.

Computer Operator & Web Developer Jun 2025 – Feb 2026

SocialEdge (SMC-Pvt) Ltd | Islamabad, Pakistan

- Developed and maintained web and mobile applications; managed computer systems and ensured smooth technical workflows.
- Identified issues and implemented effective solutions through team collaboration and technical support.

Projects

PKCERT SecureHire — AI Recruitment & CV-Screening Platform Jul 2026 – Present

React | Node.js/Express | MySQL | Ollama (Local LLM) | Docker

- Built an AI recruitment platform for PKCERT using a locally-hosted LLM (Ollama) to auto-score CVs against job requirements, extract skills/education/experience, and flag red flags with confidence ratings — fully self-hosted, no data leaving PKCERT's infrastructure.
- Implemented department-scoped RBAC, CNIC-based duplicate detection (hashed & AES-encrypted), two-phase transcript verification, admin score overrides with audit history, and a live queue with bias/fairness analytics.
- Added bulk actions, CSV/PDF exports, and secure PDF-only uploads with malware scanning; deployed via Docker Compose.

Skill Exchange & Collaboration Hub Jun 2025 – Feb 2026

ReactJS | Node.js | PostgreSQL

- Full-stack web app connecting students and professionals for skill sharing; implemented authentication, RESTful APIs, and dynamic project matching.

Docutect AI — Document Processing Platform Feb 2026 – Present

AI Documentation Platform | Figma | Product Design

- Designed an AI-powered documentation intelligence platform focused on usability, accessibility, and modern SaaS user experience. Created wireframes, user flows, and high-fidelity prototypes for developers and enterprise users. [\[Live\]](#)

Quranic App Jun – Aug 2025

React Native | Figma

- Developed interactive mobile app features; delivered within corporate timelines at CMGL. [\[Live\]](#)

Education

Bachelor of Science in Computer Science (BSCS) Sep 2022 – Jul 2026

SZABIST, Islamabad, Pakistan

Coursework: OOP | Web & Mobile Dev | AI & Data Science | Computer Networks | Distributed Systems

Skills

AI & Machine Learning	Artificial Intelligence Machine Learning Scikit-learn Pandas NumPy TensorFlow PyTorch Prompt Engineering Data Analysis NLP Fundamentals
Programming	Python JavaScript C++ SQL
Development	MERN Stack React.js Node.js Express.js React Native REST APIs
Data & Databases	PostgreSQL MongoDB
Tools	Git GitHub VS Code Jupyter Notebook Linux Figma Postman

Certifications

Certificate in IT (CIT) — Web Software & Mobile Web, NAVTTC	May 2024
Generative AI and LLMs: Architecture & Data Prep — IBM	Aug 2026
Machine Learning with Python — IBM	Aug 2026
Intro to Deep Learning & Neural Networks (Keras) — IBM	Aug 2026
Languages: Urdu (Native) English (B2 Reading B2 Writing B1+ Speaking)
